EXCLUSIONS

The warranty for the LED video wall screens does not cover the materials used in their structure and fabrication. This includes ACP sheets, angles, exhaust fans, electrical points outside the cabinets, MCBs, switchers, and external wiring. Additionally, the warranty excludes any electrical work external to the equipment, as well as the maintenance of accessories, attachments, and other devices.

Physical damage caused by accidents, fires, lightning strikes, electrical faults, voltage fluctuations, moisture, or any form of liquid damage and Rat Biting is also not covered. Repair and replacement charges for these issues will include the cost of spare parts, which must be paid to us in addition to maintenance fees.

The client is responsible for providing all external resources necessary for repairing the LED displays, including ladders, hydraulic lifts, scaffolding, and coverage for the fabricator's costs. If the LED panels require repair at a workshop, the client will also be responsible for transportation costs.

These expenses are not covered under the maintenance agreement. Responsibilities for scaffolding, ladders, hot work permits, and height permits lie with the client. Structure fabrication is performed under standard warranty conditions.
